Dr.iur.cand. Lecturer Lolita Bērziņa

The university and the city

The University of Latvia is a top ranking university of the country and among the best 750 universities of the world. It is also the largest university in the Baltic States, educating around 20 000 students every year. Translated into real life experiences, this means that E.MA students will receive high quality education and a vibrant student life.

University of Latvia is linked to another centre of excellence in law studies - Riga Graduate School of Law. E.MA students will get access to the RGSL courses, library and events.

Riga is ranked among the most beautiful cities of Europe, and called the hipster capital of the world. The city's 800 years of history are present in today's Riga – from medieval city centre, streets filled with Art Nouveau buildings, charming wooden houses and Soviet block-buildings - it has something to offer to everyone. This mixture of styles is greatly appreciated by the entrepreneurs of the city, offering art events and places for meeting and socializing for people with different tastes. An excellent classical opera house, concert halls in old storage buildings, open air concerts in the yard of old wooden houses are all within walking distance of the University, allowing you to enjoy the student life fully.

Riga is also becoming a bicycle friendly city - it opens new bicycle lines every year, giving a possibility for an easy, inexpensive and environmentally friendly way to move around and enjoy the city. Also regarding other expenses, Riga is student friendly.
